

Simonel-Olimpiu David

STUDENT & ACTIVE VOLUNTEER

I am a very active person who takes advantage of all the opportunities that arise. My two big passions are computer science and the space field. I usually establish an important barrier between personal and professional space. My motto is: "let your dreams expand beyond the borders of the universe."

Experience

july 2022 - present

COERA BC SRL | DevOps Intern

I am working as a support programmer who helps in the development of a lot of projects that the company works at. I am looking forward to develop a career in the cyber-security field taking into consideration that I am currently learning how to work as a DevOps Engineer.

january 2022-present

ROSPIN | ROSPIN School Project Manager

ROSPIN School is a project organized by the Romanian Space Initiative in collaboration with The Romanian Science Festival. This program is for high school students from all over Romania and takes place in the spring of 2022 with a number of over 300 participants.

My main involvement in this project had two big points. One of them was to define the project (being at the first edition), and the second was as a coordinator of all the teams that ROSPIN offered me so that we could realize one of the most ambitious extracurricular programs in the space field from Romania

2021-present

ROSPIN | Cluj-Napoca Ambassador

I initiated the creation of a community of space enthusiasts in Cluj-Napoca under the tutelage of the Romanian Space Initiative (ROSPIN).

Education

University

Babeş Bolyai University, Faculty of Mathematics and Computer Science, Cluj-Napoca with major in Computer Science.

2021-present

I have participated in numerous charity events and have been a participant in an initiative of religious and moral education of children with fewer opportunities between 2014 and 2017.

Projects I have participated in

August 2018

Erasmus+ KA21 "Synergy for Renewal"

Erasmus+ KA21 "Synergy for Renewal" project carried out in Vilnius, Lithuania in August 2018 for 10 days. The main purpose was sharing the ideas and values of participants from several countries.

April 2019

Erasmus+ "Be Unique"

Erasmus+ project "Be Unique" carried out in Antalya, Turkey for 7 days in April, 2019. The main goal of the project was to help people with disabilities and to show them that they can be unique in a positive way.

Publications

April 2021

Wondering for Freedom

This publication is a game that is based on the book "On Freedom" by John Stuart Mill. The game is not very complex. It takes you from the beginning of time to the end of it. Here you are included in a world full of possibilities. Here you have to get past the enemies, collect pages from the book and pay attention to the game because you will be subject to certain choices.
